The Chef'sChoice[®] Sharpening Brand Story

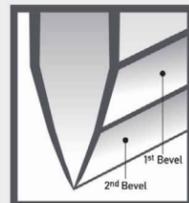

Trying to carve a holiday turkey with a dull knife, Mr. Friel was embarrassed with the results and became determined to create a knife sharpener that was easy to use and created consistent, superior edges.

In 1985, the world's first precision-guided electric sharpener was introduced to the world and the Chef'sChoice brand was born.

Today the Chef'sChoice brand is recognized as a leader in small-kitchen electrics and our products are sold in over 80 countries throughout the world.

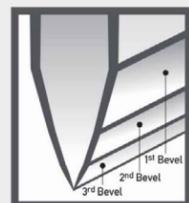

(For information on Chef'sChoice Appliances see page 39.)

The Science Behind Our Sharp

Two distinct facets set at different angles that form a longer lasting, arch-shaped edge.

DIZOR[®] ENGINEERED

Three distinct facets set at different angles that form a longer lasting, arch-shaped edge.

TRIZOR[®] ENGINEERED

Over 200 Patents and Trademarks for Sharpening

ANGLESELECT[®]
Applies a traditional 20° edge or a finer 15° edge

ULTRASTROP[®]
Patented stropping disks deliver an unparalleled polished knife edge

XV[®]TECHNOLOGY
Easily converts 20° knives to a finer 15° edge

CRISSCROSS[®]
Specialized abrasives create a micro-serrated finish

PRECISION ANGLE GUIDES
Ensures accurate sharpening and eliminates any guesswork

RECHARGEABLE LITHIUM BATTERY
Charges in under an hour for up to 45 minutes of continuous use

Why Diamonds?

Utilizing the hardest natural substance on earth, our proprietary diamond abrasives sharpen edges faster and easier.

HIGH THERMAL CONDUCTIVITY
When sharpening, heat is rapidly removed from the knife surface, maintaining knife strength & durability.

HIGH WEAR RESISTANCE
Due to its hardness, diamond abrasives have greater longevity when compared to other abrasives, which results in more efficient sharpening.

Knife Legend

These icons indicate the kind of knives the model can sharpen.

Sharpeners

Chef'sChoice offers a wide selection of precise, ergonomic sharpening options for the home and professional chef. Choose from manual, hybrid, electric, battery-powered and commercial sharpeners.

Manual Sharpeners

Easily sharpen a dull knife back to the perfect cutting angle and form. Manual sharpeners are generally smaller in size and more portable.

Manual Sharpeners

Chef'sChoice®

COLD PRESS JUICER

A delicious way for health-conscious consumers to bring nutrition and extra vitality into their kitchens. Our cold press masticating juicers squeeze the maximum amount of juice out of fruits, vegetables and leafy greens while preserving vital vitamins and enzymes.

Cold Press/Masticating vs Centrifuge

WHAT YOU NEED TO KNOW

COLD PRESS

- Operates at a lower RPM, with less heat and oxidation to preserve maximum nutrients and enzymes
- Significantly quieter noise level
- Less foam
- Food types include fruits, vegetables, celery, and all leafy greens
- Pulp comes out virtually dry allowing for more juice yield

CENTRIFUGE

- Operates at a higher RPM, with higher temperatures and greater oxidation causing loss of nutrients and enzymes
- Higher noise level
- More foam
- Food types include fruits and vegetables
- Pulp is ejected with greater wetness leading to lessened juice yield

Juicers

HORIZONTAL MASTICATING JUICER WITH DIGITAL TOUCH PAD, RED
JCCC20RD13

SILVER
KTCC17MB13

WHITE
JCCC20WH13

COLD PRESS JUICER

- Cold press, low-speed, masticating juicing results in low heat and less oxidation for maximum nutrient and enzyme in each glass
- Enjoy greater yield and higher quality juice with less foam with the 3-stage auger that squeezes more juice out of less produce for more economical juicing
- Start juicing with a quick push of a button on the digital touch pad
- Effortless clean up with a sink rinse or top rack of the dishwasher
- Juice anytime without disturbing anyone because this juicer produces less noise compared with high speed juicers
- Juice with peace of mind knowing that the juice is BPA free
- Juice longer with less clogs as the anti-clog reverse functions prevents food build up to allow for continuous use
- Includes 1 Juice Container, 1 Pulp Container, 2 Juice Screens, and 1 Cleaning Brush
- Warranty: 1 Year
