MARINE ICE MACHINES

Maxx Ice Compact Marine Ice Machines produce individual long crescent shaped cubes and produce up to 25 lbs of ice per day. The refrigerated ice storage compartment inhibits ice from melting and will hold up to 12 lbs. The units are available in stainless steel, white and black exterior finishes. Built for marine applications, the MMAR25 model is suitable for free-standing or built-in installation and is available with a removable flange. The units are easy to install because a drain connection is not required.
