Vinotemp®

A Proud Heritage of Quality, Value and Service

ABOUT VINOTEMP

1985

Since 1985 close attention to market demand and non-standard ideas have made Vinotemp ® the leading provider of diversified wine storage solutions utilized worldwide residentially and by renowned resorts, restaurants, hotels and the yachting industry.

2021

In 2021, The Legacy Companies acquired Vinotemp along with Vinotemp's family of brands including Wine-Mate, Apex, Brama and Epicureanist—brands that work together to ensure customers receive the best wine cellaring experience. Going above and beyond the usual assortment of wine coolers, wine cabinets, wine racks, wine cooling systems and kitchen appliances, Vinotemp continues to research and design new and innovative products, keeping up with trends for commercial and residential use.

Under The Legacy Companies, Vinotemp promises to remain steadfast in providing quality, value and service for all your wine storage needs.

WINE Coolers

Patented
Backlit™ Panel

These showy units are all about creating a spectacular display for your best bottles. Streamlined patented stainless steel wine racks ensure that your bottles are properly secured while maximizing the visibility of wine bottle labels. Its patented interior Backlit™ panel has three different light-emitting diode (LED) options – **Heliotrope**, **Amber** and **Vinotemp BioBlu™** (which helps reduce the growth of bacteria and mold) – and can be selected at any given time or the interior lighting can be turned off.

Patented Interior Backlit™ Panel: (U.S. Patent No. D868,849 S)

Patented Label Forward, VinBo™ Racks: (U.S. Patent No. D910,089 S)

WINE Racks

METAL WINE RACKS

A modern wine rack solution, metal wine racks offer both function and style. A strong and sturdy option, metal wine racks may be stainless steel, cast iron, nickel, or powder-coated. Metal wine racks come in a variety of installations; wall-mounted, free-standing units that can be placed on the floor, counter-top, or hanging.

These space saving wall-mounted racks will make your wine bottles look like they are floating in air

WINE-MATE
Cooling Systems

Wine Cellar Cooling Systems Maintain the Temperature Inside Your Wine Cellar

A balance of temperature and humidity is critical for the proper storage and aging of wine. Temperature affects the rate of maturation while the right humidity keeps corks in good shape. Excess moisture can lead to mold or fungal contaminations while a room that is too dry can cause corks to shrink, leading to the oxidization of wine. You can protect your investment by providing the ideal cellar environment with a state-of-the-art Wine-Mate wine cellar refrigeration system.

Custom Vinotemp Wine Cabinets with Wine-Mate Self-Contained Wine Cooling Systems

SELECT FROM:
Self-Contained, Split or Ducted Cooling Systems — All Designed Specifically for Proper Wine Storage

SELF-CONTAINED	SPLIT	DUCTED
Self-Contained Customizable	Ceiling-Mounted	Central-Ducted
Self-Contained Ducted	Low-Profile	
Stand-Alone	Rack-Mounted	
	Rack-Recessed	
	Wall-Recessed	
	Through-Ceiling	

WINE-MATE SELF-CONTAINED
Wine Cooling Systems

Wine-Mate Self-Contained Cooling Systems are efficient units that can be set up without the help of a refrigeration technician or the need for additional ductwork. These cooling units are excellent choices for cooling in a cabinet or when there is a larger interior space to vent into.

Accessories for Self-Contained Units

Temperature Probe for Wine-Mate Self-Contained Cooling Systems

The Wine Bottle Probe helps you get the most accurate reading of your wine's temperature

24V WM-CTCONTROL-WIFI

The 24V Wi-Fi Touchscreen Controller helps maintain a wine cellar at the perfect temperature for long-term storage of wine

WM-1500CFCD (Front Cord)
WM-1500CD-P (w/Wine Probe)

- Digital temperature control to provide subtle cooling at 50~65 °F, maintains humidity of 50~75% RH
- Oversized and bottom feeding evaporator for humidity maintenance
- Bottom cold air discharge for best cooling in wine cabinets
- High efficiency ball-bearing fans for both condenser and evaporator

Compact cooling units have a water-repellent, self-cleaning and anti-microbial coat that helps your equipment stay efficient and actively kills harmful bio-film growth.

SPECIFICATIONS:

Cellar Size: 90 cu ft
Btu/h, CFM: 1500, 120
Decibel Rating: 49 dBA for cooling, 46 dBA for cabinet
Exhaust: Rear (standard)
Weight: 55 lbs

Wine-Mate 2500CD
Self-Contained Compact Wine Cooling System

WM-2500CD (Standard)
WM-2500CTED (Top Exhaust)
WM-2500CFCD (Front Cord)
WM-2500CD-P (w/Wine Probe)

- Digital temperature control to provide subtle cooling at 50~65 °F, maintains humidity of 50~75% RH
- Oversized and bottom feeding evaporator for humidity maintenance
- Bottom cold air discharge for best cooling in wine cabinets
- High efficiency ball-bearing fans for both condenser and evaporator

Compact cooling units have a water-repellent, self-cleaning and anti-microbial coat that helps your equipment stay efficient and actively kills harmful bio-film growth.

SPECIFICATIONS:

Cellar Size: 200 cu ft
Btu/h, CFM: 2500, 180
Decibel Rating: 56 dBA for cooling unit, 52 dBA for cabinet
Exhaust: Rear (standard)
Weight: 60 lbs

Wine-Mate 1500HTD
Self-Contained Humidity & Temperature Wine Cooling System

- Digital temperature control to provide subtle cooling at 50~65 °F, maintains humidity of 50~75% RH
- Oversized evaporator for humidity maintenance
- High efficient tube-axial fans
- Extra insulation for both thermal and noise isolation
- Unique condensate drain tray for humidity control
- Grill size optimized for easy cleaning and safety

WM-1500HTD (Standard)
WM-1500HTD-TE (Top Exhaust)
WM-1500HTD-FC (Front Cord)

WM-2500HTD-TE-R (Top Ex.+ R. Cord)
WM-2500HTD-R (Rear Cord)
WM-2500HTD-P (w/Wine Probe)
WM-2500HTD-QC (w/Quick Chill)

SPECIFICATIONS:

Cellar Size: 200 cu ft
Btu/h, CFM: 2500, 180
Decibel Rating: 56 dBA for cooling unit, 52 dBA for cabinet
Weight: 60 lbs

Wine-Mate 1500SLIM
Self-Contained Slim Wine Cooling System

- Adjustable temperature control between 50~65 °F, maintains humidity of 50~75% RH
- Cooling unit features 8" deep slim profile to fit small and medium wine cabinets
- Can provide a cabinet depth of less than 18 inches
- Innovatively designed cold air curtain keeps even temperatures everywhere in the cabinet

WM-1500SLIM (Standard)
WM-1500SLIM-TE (Top Exhaust)

SPECIFICATIONS:

Cellar Size: 90 cu ft
Btu/h, CFM: 1500, 120
Decibel Rating: 47 dBA for cooling unit, 44 dBA for cabinet
Exhaust: Rear (standard)
Weight: 40 lbs

Wine-Mate 1500LOWP
Self-Contained Low-Profile Wine Cooling System

- Digital temperature control to provide subtle cooling at 50~65 °F, maintains humidity of 50~75% RH
- Slim design can easily be installed in cabinets and small spaces
- Bottom cold air discharge and multiple top and rear hot air exhaust
- Removable grill for easy cleaning

WM-1500LOWP (Standard)

> Low-profile cooling units have a water-repellent, self-cleaning and anti-microbial coat that helps your equipment stay efficient and actively kills harmful bio-film growth.

SPECIFICATIONS:

Cellar Size: 90 cu ft
Btu/h, CFM: 1500, 120
Decibel Rating: 49 dBA for cooling, 46 dBA for cabinet
Exhaust: Rear (standard)
Weight: 55 lbs

Wine-Mate 2500LOWP
Self-Contained Low-Profile Wine Cooling System

- Digital temperature control to provide subtle cooling at 50~65 °F, maintains humidity of 50~75% RH
- Slim design can easily be installed in cabinets and small spaces
- Bottom cold air discharge and multiple top and rear hot air exhaust

Wine-Mate 1500HZD
Self-Contained Horizontal Wine Cooling System

WM-1500HZD (Standard)
WM-1500HZD-R (Rear Cord)

- Digital temperature control to provide subtle cooling at 50~65 °F
- This cooling unit can be used inside a glass wine cellar
- Horizontal cold air discharge for best cooling in wider wine cabinets or rooms
- Four high speed fans for air efficiency

SPECIFICATIONS:

Cellar Size: 90 cu ft
Btu/h, CFM: 1500, 120
Decibel Rating: 51 dBa
Exhaust: Rear (standard)
Weight: 50 lbs

Installation	Indoor	Indoor	Ceiling	Ceiling
	All self-contained units are ready for use and easy to install. They are designed to provide a controlled temperature range of 50-65°F with 50-70%H inside a well insulated space. **Self-contained HZD models can work well with all glass units.**		**SSL units are ETL & NSF Listed**	**SSD evaporator units can be mounted to the ceiling in the middle of the cellar, condensing unit can be installed up to 50ft away from the wine cellar.**

AIR-COOLED
Perfect for well insulated wine rooms. Flexible design offers customers many different installation options. These units are designed to provide a cold environment between 50-65°F with a humidity range 50-70%RH.

WATER-COOLED
Specifically designed for use in locations where exhaust ventilation is not an option. These units are designed to provide a cold environment between 50-65°F with a humidity range 50-70%RH

These systems work well with all glass units.

We offer a variety of cooling systems solutions for your wine cabinet or wine room with an array of installation options. **More Wine-Mate models available on Vinotemp.com.**
